

Cristian Olivera Chávez

Apurímac, Perú · github.com/CristianOlivera1 · +51 954 306 632 · oliverachavezcristian@gmail.com

Results-driven Full-Stack Developer with a strong sense of ownership and a commitment to continuous technical growth. Experienced in building scalable applications using Angular, Next.js, Spring Boot, and robust database architectures.

EXPERIENCE

Codideep E.I.R.L

Frontend Engineer

Apurímac, Perú

Sep 2025 - Mar 2026

- Designed and developed a centralized expense management system, standardizing technical components to accelerate product delivery cycles.
- Successfully updated and refactored multiple platforms to stable versions of Laravel and Angular, ensuring long-term code scalability.
- Contributed to the full-stack development lifecycle of a sports center management system, boosting operational efficiency in booking management.

PROJECTS

Openvid - Video Editor (Winner of midudev's Hackathon 2026)

Full-Stack Developer & Systems Architect

Personal Project

Feb 2026 - Present

- Edge Processing & WebAssembly: Implemented FFmpeg.wasm to offload 4K video rendering from the server to the client browser, reducing infrastructure costs and ensuring data privacy.
- Data Management & Storage: Designed a hybrid storage architecture using PostgreSQL (Supabase) for user persistence and IndexedDB for local management of large binary files, minimizing network latency.

Tech Stack: Next.js, FFmpeg.wasm, Supabase, PostgreSQL, Canvas API, ThreeJS, Framer Motion.

Chat AI -Multimodal AI Platform

Full-Stack Developer

Personal Project

Oct 2024 - Apr 2026

- Multimodal Architecture: Built an end-to-end AI platform that processes textual prompts to generate high-fidelity images and videos by integrating Google Gemini and Freepik APIs.
- Conversational Interface & Auth: Implemented a real-time chat interface with instant responses and set up secure user authentication via Google OAuth using Supabase.
- Hybrid Session Logic: Designed a dual-storage data flow to independently manage conversation histories for authenticated users (cloud) and anonymous visitors (local).

Tech Stack: Next.js 15, Tailwind CSS, Google Gemini, Supabase, Freepik API, PostgreSQL, AI Elements.

EDUCATION

UNIVERSIDAD NACIONAL MICAELA BASTIDAS DE APURÍMAC

B.S. in Systems and Informatics Engineering

Apurímac, Perú

Apr 2022 - Apr 2027

SKILLS

- Technical Skills:** Angular, Next.js, Laravel, Android Studio, Spring Boot, MySQL, PostgreSQL, Tailwind CSS.
- Languages:** Spanish (Native), Quechua (Native), English (Basic).
